

Automação de envio por email

Passos para configurar o seu gmail, de modo a permitir envio de mensagens por ferramentas de desenvolvedores

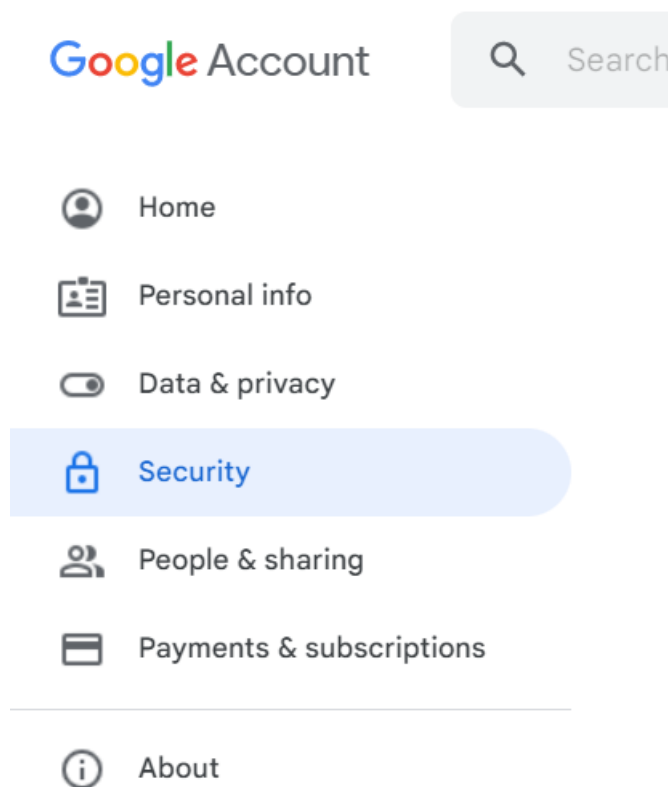

- Passo 1 - Acessar a conta do GMAIL que enviará o arquivo
- Passo 2 - No canto superior da tela, localize o logo do da sua conta

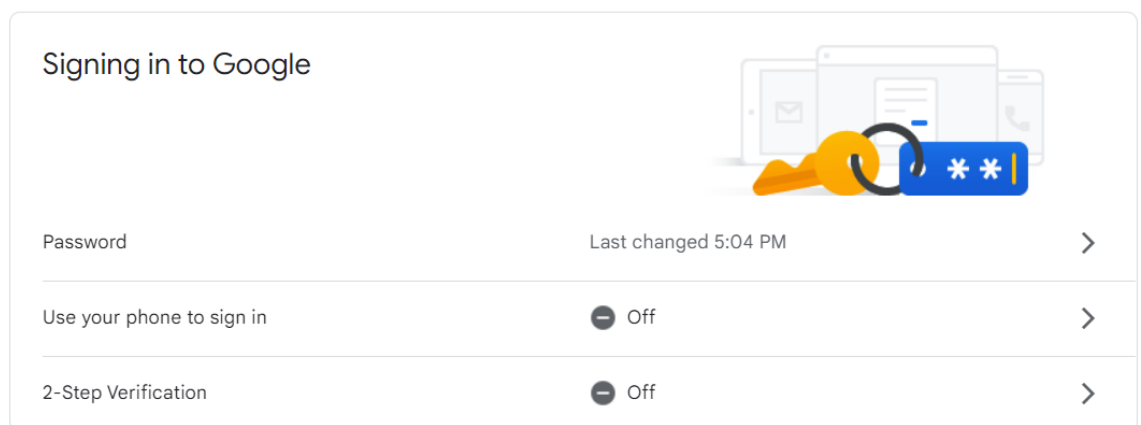

- Passo 3 - Clique sobre a imagem e, em seguida, clique em "Manage Google Account"

- Passo 4 - No menu lateral, a esquerda, clique em "Security"

- Passo 5 - Localize "Signing in to Google" e clique em "2-Step verification"

- Passo 6 - Clique em "Get Started"

Security made easy

In addition to your password, 2-Step verification adds a quick second step to verify that it's you.

Use 2-Step verification for all your online accounts

2-Step verification is a proven way to prevent widespread cyberattacks. Turn it on wherever it's offered to protect all your online accounts.

Safer with Google

GET STARTED

- Passo 7 - Faça o login no seu email

To continue, first verify it's you

Enter your password

Google will only use this number for account security.
Don't use a Google Voice number.
Message and data rates may apply.

How do you want to get codes?

☒ Text message ☐ Phone call

[USE ANOTHER BACKUP OPTION](#) [SEND](#)

- Passo 9 - Você receberá uma mensagem em seu telefone com o código para confirmar. Digite o código e habilite a verificação em 2 etapas
- Passo 10 - Ao retornar para a gestão da sua conta google e clicar em "Security", verifique se está habilitada a segurança em duas etapas

Signing in to Google

Password	Last changed 5:04 PM	>
2-Step Verification	<input checked="" type="checkbox"/> On	>
App passwords	None	>

- Passo 11 - Agora ainda em "Signing in to Google", dentro de "Security", clique em "App Passwords"

- Passo 12 - Será necessário logar-se novamente

A screenshot of the password verification screen. At the top, it says 'To continue, first verify it's you'. Below this is a text input field with the placeholder text 'Enter your password'. Under the input field is a checkbox labeled 'Show password'. At the bottom left is a link 'Forgot password?' and at the bottom right is a blue button labeled 'Next'.

- Passo 13 - Após efetuar o login, clique em "Select App" e selecione "Other (Custom name)"

A screenshot of the 'App passwords' screen. At the top, there is a back arrow and the title 'App passwords'. Below the title, there is a paragraph explaining app passwords: 'App passwords let you sign in to your Google Account from apps on devices that don't support 2-Step Verification. You'll only need to enter it once so you don't need to remember it. [Learn more](#)'. Below this is a box with the text 'You don't have any app passwords.' and 'Select the app and device you want to generate the app password for.'. There are two dropdown menus: 'Select app' and 'Select device'. The 'Select app' dropdown is open, showing a list of options: 'Mail', 'Calendar', 'Contacts', 'YouTube', and 'Other (Custom name)'. To the right of the dropdowns is a 'GENERATE' button.

- Passo 14 - Digite "Python" e clique em "Generate"

← App passwords

App passwords let you sign in to your Google Account from apps on devices that don't support 2-Step Verification. You'll only need to enter it once so you don't need to remember it. [Learn more](#)

You don't have any app passwords.

Select the app and device you want to generate the app password for.

Python

GENERATE

- Passo 15 - Salve o password, localizado no fundo amarelo, em um local seguro. E clique em "Done"

Generated app password

Your app password for your device

yhcv qeui ucrh bbpn

How to use it

Go to the settings for your Google Account in the application or device you are trying to set up. Replace your password with the 16-character password shown above.

Just like your normal password, this app password grants complete access to your Google Account. You won't need to remember it, so don't write it down or share it with anyone.
